WORK EXPERIENCE

Freelance   **Eastvale, CA**
Web Developer   *August 2022 – Present*

- Developed and deployed two professional-grade websites, "apachenews.ausd.net", "rotary-ev.org", erhs-fbla.webflow.io", "eastvaleinnovators.org", showcasing exceptional web development skills and attention to detail.
- Worked as a freelance web developer, successfully collaborating with clients to deliver custom website solutions that met their specific business needs and requirements.
- Demonstrated strong project management skills by delivering projects on time and within budget, ensuring high client satisfaction and repeat business.

Virtual Medical Missions   **Eastvale, CA**
Chief Web Developer & Lead Project Manager   *May 2022 – Present*

- Developed and executed a comprehensive project plan, utilizing agile methodology, resulting in the successful launch of a new website within the first quarter.
- Managed and supervised a team of 40 student volunteers from diverse backgrounds, including medicine, computer science and engineering, to design medical infrastructure projects for third world countries.
- Oversaw the implementation of cost-effective technology solutions.

LEADERSHIP EXPERIENCE

ERHS Future Business Leaders of America   **Eastvale, CA**
Community Service Director   *September 2022 – May 2023*

- Led a team of community-minded individuals as the Community Service Director for the Future Business Leaders of America (FBLA) chapter at Eleanor Roosevelt High School, overseeing the planning and execution of various community service initiatives.
- Spearheaded successful fundraising campaigns and volunteer efforts, demonstrating exceptional organizational and motivational skills to rally the team and achieve fundraising goals.
- Fostered strong relationships with community organizations and stakeholders, building a network of support and collaboration to create impactful community service projects that positively impacted the local community.

Eastvale Innovators   **Eastvale, CA**
Club Founder and President   *August 2022 – Present*

- Founded and led Eastvale Innovators, a successful STEM club focused on promoting computer science, engineering, and cybersecurity opportunities for students, serving as an effective leader and mentor to club members.
- Developed and implemented a variety of successful initiatives and events, such as coding competitions, guest speaker events, and networking opportunities, which enabled members to build skills, knowledge, and connections in the industry.
- Effectively managed the club budget, secured funding through grant proposals, and built strong partnerships with local organizations and industry experts, which enabled the club to thrive and expand its impact within the community.
